Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some uterine disease. The physician, ignorant of the *cause* of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native medicinal roots and is perfectly harmless in its effects *in any condition of the system.*

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs, it allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Revolution Imminent?

France at the present moment is said to be facing the gravest peril that can menace a democracy or any form of government.

The law has bowed before the mob in more than one disturbed district, with the inevitable result. Rebellion has begun, and anarchy threatens to swiftly follow, not only at the scenes of the prevailing riots, but in Paris itself.

The attention of the world cannot fail to concentrate on the tremendous object lesson in modern statecraft which France will be compelled to furnish in the next few days.

Since the retirement of Prime Minister Waldeck-Rousseau the country has not had a strong government in its internal administration. Weakness first manifested itself in tolerance of verbal defiance of the law. Even President Loubet on one occasion permitted a red flag to pass him in procession without protest. Virtual treason has been talked openly in certain quarters for months past.

There will be attempts made to connect the present labor insurrection with the agitation against the religious separation law. The only connection is the effect of a bad example. It was in dealing with the rioters who opposed the authorities taking inventories of church property that the government first openly condoned violent defiance of the law. Citizens who flagrantly assaulted public officers and soldiers who refused to obey orders were allowed to go scot-free. Attempts to enforce the law in districts where it was especially unpopular were finally abandoned entirely under the plea of inexpediency.

During the recent disorders incident to the strike the troops were instructed to show themselves for moral effect, but on no account to use their arms, even in self-defense. The rioters speedily took advantage of this licensed lawlessness. They destroyed everything they could lay their hands on, including the railway and telegraph lines, looted shops and burned houses. The mob attacked the troops in the streets, pelting them with a murderous fusillade of bricks, stones, and other missiles. One or two were killed and many wounded.

The men composing the military force in the district are from a distant part of France. They have no sympathy with the strikers, and there is not the smallest doubt that they would gladly obey orders to suppress the rebellion. Their courage under the most trying circumstances is in strong contrast to the pusillanimity of their civil superiors who deprived them of the right to defend the law.

The minister of the interior went to the disturbed districts. He told the leaders of the strike that they really must not act in this violent way. At the close of his visit there was an amazing scene. M. Clemenceau walked in a friendly way down the street with a large company of revolutionists. There was a red flag in the group, and some sang the seditious song "Internationale." They met a column of cavalry, and M. Clemenceau's companions joined in loud hisses and jeers, and the minister of the interior listened in silence. He made no attempt not to identify himself with the insult to authority.

It is not to be wondered at that the movement is spreading like wildfire among all the malcontents in the country. Great strikes are now in progress at Brest, Toulon, and most of the seaports, and every preparation has been made in Paris for a general outbreak on May day or earlier.

The Paris Temps says: "The insurrection gains in violence, in extent and in perfection also. Each day records a new victory for the revolutionary strategists. On Friday morning at Haveluy they routed two squadrons, seriously wounding a captain and several troopers. At nightfall they seized the village of Lievin, occupied the railyway, tore up the gas lamps and telegraph posts and planted the red flag on the ruins of a burned house. Thus the revolutionary standard flie from victory to victory, one day throwing its protective color over a minister's head and the next day demonstrating the powerlessness of the same minister to combat against it."

M. Clemenceau apparently fears to restore order because, his enemies say, he is afraid the use of bullets and bayonets would cause him to lose in the elections of May 6. This might be the consequence, for organized labor would resent the shooting of mobs of strikers, even if they assumed the character of revolutionists. His hesitation to uphold the law at any cost, however, now promises to result in a bloody chapter of French history. The government itself is most concerned about Paris. They fear not only demonstrations by a mob, but anarchistic outrages. There will be thousands of troops in or near Paris by the end of the week, and there is no reason to believe they are disloyal.

Summer Schools.

It was officially announced Saturday by Superintendent of Public Instruction Eggleston that it has been decided to hold the summer institutes at Norfolk, Farmville, Martinsville, Fredericksburg, Winchester, Covington, Big Stone Gap and Emory and Henry College. It has not been decided whether an institute will be held at Radford. The naval school of methods will be held at Charlottesville, to be conducted by Mr. Edward C. Glass, of Lynchburg.

These institutes will begin about June 28th and will last for one month, affording the teachers an opportunity to take the examinations to be held July 30, 31 and August 1. These examinations are for such teachers as do not take the examinations May 3, 4 and 5, which have been arranged in some sections.

Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headache, sallow complexion, etc. Sold by W. F. Creighton & Co., 401 King street.

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? For sale by Gibson and Timberman and W. F. Creighton and Company.

TUESDAY EVENING, APRIL 24, 1906.

"A SCHOOL FOR INFIDELS" is the title given to the University of Chicago a day or two ago in an open letter sent to the members of the faculty by Richard Hayes McCartney, professor of Biblical literature in that institution. The startling attack against the school ends with an appeal to John D. Rockefeller to remove Prof. George B. Foster, author of "The Finality of the Christian Religion." Mr. Hayes calls for the immediate removal of Prof. Foster from the institution. The recent attacks made in colleges against the Christian religion are attracting the attention of the thoughtful. The arrows of infidelity are not only coming from institutions of learning, but are often seen flying from pulpits, which shows that certain men are drawing salaries to proclaim what they do not believe themselves. They should step down and out and cease their masquerading.

HIGH OFFICIALS of the Baltimore and Ohio Railroad, summoned as witnesses at Baltimore before the Interstate Commerce Commission, last week, were compelled to confess that they had owned stock in coal companies, receiving it sometimes as gifts; that they purchased locomotive fuel above market price and shared in the profits; that they had restricted independent mining by favoring the big companies, and had paid rebates by classifying their own company's output as "fuel." Fourth Vice President Thayer, of the Pennsylvania Railroad, was forced to admit that private cars had been distributed unequally so as to favor certain shippers. When railroad officials high in authority make such confessions there is little wonder at the prejudice which seems to be growing among the people against railroads.

SECRETARY OF WAR W. H. Taft delivered the first lecture in the Dodge foundation course at Yale last night, dealing with "The Responsibility of Citizenship." Among other things the secretary said he had scant sympathy for those among the college graduate class who are eager for a general socialistic scheme. Although that class seems to be increasing, he felt confident that it will pass away like other classes of cranks. Mr. Taft is doubtless one of the most practical men of the present administration, and his observations concerning socialism will be endorsed by sensible and good citizens of all parties.

A FEDERAL grand jury at Buffalo last week created a political sensation by returning indictments against Postmaster Greiner, Fred O. Murray, who was recently appointed collector of the port, and three former supervisors. The charges are in connection with bribery and corruption in the sale of an abandoned cemetery to the county in 1901 as a site for an armory. Greiner, as attorney for the company, got an award of $57,000 by bribing the supervisors Murray at the time was county treasurer. Powerful influence had been exerted to protect these men, but one of the conspirators was prevailed upon to confess all.

THE imposition by the Federal Court of a fine of $60,006 upon the Chicago, Burlington and Quincy Railroad corporation and two of its employes for granting illegal rebates to a subsidiary branch of the steel trust will do more for the abatement of that pernicious form of grafting than all the proclamations of war. That was a stroke of business. The burnt child dreads the fire. A jail sentence alone could have been more efficatious.

PITTSBURG mills are reported to be so busy that it will be almost impossible to supply material for the rebuilding of San Francisco there. This is one of the chief industries for which the people are taxed to support.

AN estimate made at Wilkes-Barre places the loss from the suspension of coal mining at $21,900,000. A dead loss and no one gains.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, April 24.

Major Torney, chief surgeon at San Francisco, wired to Surgeon General O'Reilly today that the general hospital at the Presidio is now in full working order, and that medical arrangements about the Presidio and contiguous territory are fully established. Water for this district is being taken from Lobo's creek. A disenfecting brigade has been organized. A contagious disease hospital has been established in Harbor View Park.

The War Department this morning gave out a telegraphic report from Maj. General A. W. Greely, commanding the Pacific division of the army, who has just arrived from Chicago, in which he says that probably 20,000 are under army canvas and about 200,000 people without shelter. Although rain entailed discomfort last night conditions are very much improved. It is estimated that more than 25,000 left the city during the past 24 hours. About 7,000 civilians under pass have entered San Francisco during the past four days. Working parties are busy clearing roads, demolishing dangerous walls and repairing water mains. Present indications point, however, to largely decreased demands the coming week owing to rapid removal of inhabitants to country and adjacent towns. Many relief trains are arriving daily.

A dispatch from Gen. Greely at San Francisco says: "Very careful investigation made by Captain Winn today limits as far as information is obtainable the entire San Francisco death list to two hundred and seventy-seven victims. Of these about fifty unknown gathered from various parts of the city have been temporarily buried in Lombard and Bay streets, Washington square and Portsmouth square. In the Valencia Hotel fourteen bodies were recovered and fifty-six others are believed to have perished in the ruins. Although this report very materially reduces the death list for San Francisco it is not believed that it will be further increased save by isolated victims among the ruins."

A dispatch from Gen. Greely received at 11 o'clock this morning, from San Francisco, says: "Have had consultation with Mayor Schmitz, General Funston and the chief of police regarding necessities of the near future. The Mayor urges that the army take charge of the large districts now guarded by the State militia. Apart from other considerations it is evident that the State militia cannot be expected to serve here any considerable length of time. The Mayor informed me that he should ask the Governor to remove all militia at once.

Following the precedent set in the case of the great Chicago and Boston fires, Congress will pass a bill authorizing the free importation of structural steel and other building materials for use at San Francisco The Senate finance committee had a meeting this morning but took no action on the resolution to this effect, which was introduced yesterday by Senator Cullom, for the reason that all measures affecting revenues must originate in the House. Confidence was, however, expressed by Senator Aldrich that the House would speedily take action in this direction.

"The commercial and trade conditions of this country cannot be carried on unless there is some sort of understanding between the railroads as to rates" was the defense which T. S. Davant, freight traffic manager of the Norfolk and Western Railroad, was forced to advance this morning at the further investigation of the Interstate Commerce Commission into the coal and oil business. Mr. Davant is under a cross fire of questions in regard to the competition of the Norfolk and Western with the Chesapeake and Ohio, the Baltimore and Ohio and the Pennsylvania, for carrying coal to points in the eastern States from the West Virginia bituminous field. At first Mr. Davant denied there was any agreement whereby the Norfolk and Western was to keep out of Washington, stating that his road could not find terminal facilities by the water route and that shipment to Washington by rail was impracticable. He was asked if he had not had conversations with officials of other railroads in regard to the Washington market. He admitted talking with Mr. Searles, coal freight agent of the Pennsylvania, and that he had been given to understand that if the Norfolk and Western entered Washington, the Pennsylvania would go into its territory. "It might be considered an understanding," he said. At another time the Chesapeake and Ohio, the Baltimore and Ohio and the Pennsylvania threatened to enter the territory of the Norfolk and Western if it did not keep out of Washington. It kept out.

Narrow Escape from Bomb

Paris, April 24.—According to the correspondent of the Journal at Monte Limar, in the department of Drome, former President Loubet had an almost miraculous escape from death at the hands of a man with a bomb. M. Loubet was working in his study when an officer, who was in the room, noticed a suspicious looking object from which smoke was issuing near the window. He rushed to it and extinguished a fuse. The contents of the object when analyzed proved that it was a bomb. Had it not been for the quick work of the man who discovered the bomb it would undoubtedly have exploded.

SAN FRANCISCO.

The new San Francisco is in its first stages of rebuilding. After five days of confusion and almost superhuman effort on the part of citizens of California's metropolis in the task of sheltering, feeding and otherwise caring for the homeless thousands, complete order has been established and attention turned to the future. Confidence has been restored. The assurance of insurance companies, the measures taken by the financial institutions, the prompt and reassuring words that have reached the business men of San Francisco from eastern financial centers, have dispelled the feeling of uncertainty.

Views of Dr. Stafford.

To the Editor of the Alexandria Gazette:

Will you do me the favor to publish the annexed extract from a sermon by the Rev. Dr. Stafford the eminent Roman Catholic prelate of Washington city, on the calamity which has befallen San Francisco. I believe every rational man will endorse his views. Those who entertain narrow views on the subject of special providence may perhaps dissent. LAICUS.

"Some foolish people who know the councils of the Almighty, and who think the Omnipotent God sits on His throne only occupied in watching His opportunity to punish sinners will tell you that this is His judgment and punishment of the sins of the people. If you follow that logic out you would have to have earthquakes all over the world until the human race is destroyed. Fudge and nonsense! The truth is, God governs the world by general laws and some times in the operation of those laws and in the grinding out of the general purpose the individual or a multitude of individuals are caught in the machinery and perish; nor is God obliged, even by mercy, to suspend the operation of law to save the individual. All we can do and must ask is that everyone thus innocently suffering and dying that the general laws of the universe may be carried well in God's good time be fully and perfectly compensated. Thus the idea of law and of God's mercy stands even in the face of this appalling calamity. Ours to bow our head, accept the fact, heed the call of suffering, do all we can to relieve it and leave the rest to God.

Commemorative Services.

Annapolis, Md., April 24.—President Roosevelt, admirals of the American and French navies, the French Ambassador, cabinet officers and members of Congress, with representatives of the State government of Maryland, joined this afternoon in commemorative ceremonies over the body of John Paul Jones, the first American admiral. Thousands of visitors thronged Annapolis all day and concentrated at the government armory of the Naval Academy, where the exercises were held. Cloudless skies and perfect sunshine made the city and the bay glisten with beauty.

Today is the anniversary of John Paul Jones's victory over the British frigate Drake with the little American sloop-of-war Ranger, and the gala celebration enacted in Annapolis by the host of officials and plain sight-seeing visitors has partaken both of homage and reverence to the memory of the sailor whose men have been the only enemies to set foot on British soil in 500 years.

While the festivities commenced with the arrival of the presidential party about one o'clock, the morning hours from the Naval Academy to Annapolis roads, where lie the combined American and French squadsons, was alive with launches and whale boats, conveying officers, seamen and marines in full dress uniform between the ships and landing quay.

Five miles off in the roads anchored in beautiful array lay three French cruisers, the Marseillaise, flying Admiral Campion's flag. In line with them were the American battleship squadron, the Alabama, with Rear Admiral C. H. Davis's flag; the Illinois, the Iowa, and the cruisers' squadron, the Minneapolis, flying Rear Admiral R. B. Bradford's flag, Des Moines, the Cleveland, and the Denver. The first salute of 21 guns was fired by the fleet when the President reached the Naval Academy, a later Admiral's salute of 17 guns in honor of John Paul Jones being fired during the ceremonies.

President Roosevelt drove in Admiral Sands' carriage from the railway station to the Admiral's quarters in the Academy grounds, escorted by Troops E and F, Tenth Cavalry, under command of Col. Hatfield and Captains Preston and Whitman. The other members of the presidential party drove in Annapolis hacks to the same destination, where from 1:30 until shortly after two o'clock a luncheon was served and an informal reception held. The crowds that reached town in the special Congressional trains shifted as best they could at the local hotels and impromptu lunching places especially established.

The great leaden casket containing the body of John Paul Jones was removed to the armory early in the day from the temporary vault on the lawn facing Blake Row, where it has rested since brought from France last July. The bier was in the southeastern side of the armory, before the platform from which the speakers addressed the great audience. At the end of the hall was the Oratorio Society of Baltimore, 350 strong, which interspersed the programme with the "Star Spangled Banner," the "Marseillaise" and the other appropriate music. Immediately in front of the platform were the sections reserved for the congressional guests while the great mass of audience spread in fan-shaped rows of the chairs over the vast expanse of the armory floor.

When President Roosevelt, Secretary Bonaparte and the other Cabinet members present, with the French and American naval officers, and the distinguished guests walked to the armory, they passed between lines of French and American blue jackets standing shoulder to shoulder. The Frenchmen, 1,400 strong, with their red caps, tight breeches and barred shirts were a fitting set off to the sturdy blue clad American sailors with their bell shaped trousers.

Excellent patrol regulations were a part of the day's successful management. None but card bearers were admitted to the academy grounds and at the armory twelve upper class midshipmen with a squad of assistants ushered the guests to their proper seats.

Secretary Bonaparte presided and introduced President Roosevelt.

The President welcomed the diplomatic and official representative of France and extended the thanks of the American people to that country, the ancient ally of the United States, through whose help John Paul Jones was able to win for the Stars and Stripes the victory that has rendered his name immortal. The President also thanked the French nation for its courtesy in aiding the United States in the identification of the remains of the great hero and for the part France played in the exercises incident to the commemoration of the memory of the illustrious American. The President called attention to the galaxy of great French naval commanders who have at times appeared, and recounted some of their exploits. He subsequently portrayed Jones in a vivid manner and enjoined every officer of the navy to keep such a model in mind. The President gave a resume of the history of the United States navy down to the present time, referring to all the important engagements of the revolution, the war of 1812, the civil war and that with Spain in 1898.

Secretary Bonaparte also introduced Ambassador Jusserand, and at the close of the latter's speech the secretary introduced Gen. Porter

The exercises were closed with an address by Gov. Warfield, of Maryland, and the singing of "How Sleep the Brave," by the Baltimore Oratorio Society.

The great audience then left the building and lined the terraces of Bancroft Hall, the midshipmen's dormitory. The 4,000 French and American sailors and the cavalrymen had reformed and made a line from the Armory to the magnificient landward entrance to Bancroft Hall. Through this lane 20 body bearers, selected petty officers of the French and American fleets, carried the casket to its second temporary resting place in Memorial Hall, a part of the great Bancroft Hall structure, where it will remain until permanently placed in the crypt of the Academy chapel.

President Roosevelt and all the distinguished guests acted as an honorary cortege. With bared heads they followed the casket through the lane of sailors and cavalrymen to its resting place. The President left Annapolis for Washington at the conclusion of the day's ceremonies.

Another Earthquake Shock.

Los Angeles, Cala., April 14 — A persistent rumor is in circulation here that San Francisco was shaken by another earthquake last night. The movement was from east to west and lasted about four seconds.

Oakland, Cala,, April 24.—Another earthquake shock occurred at 10:40 last night, and increased the anxiety of San Francisco's stricken people. It lasted but a few seconds, and no damage is reported. The shock, though, caused many of the people to remain awake through the night, as they feared further disturbances.

The rain of yesteeday and the new shock has decided many of the refugees to leave San Francisco, and the exodus started again early this morning with renewed force. Transportation is not hard to get. It is harder to get a loaf of bread than to get a railroad pass out of the storm centre. Southern Pacific only ask these questions.

"Where do you want to go?" and "how many in your party?"

The shock of last night shows plainly that San Francisco is a nervous wreck. The first day, when the big quaken occurred, the people waited for the final shock that would sink the city, then for four days they had a chance to forget the shocks as the ravages of the fire fiend gave them something else to think of. Now the slightest quiver causes them to cover their faces.

No correct estimate of the dead will ever be obtained. In all cases it has been necessary to bury the bodies at once and only about five per cent of the victims are identified. It would, therefore, be as easy to get out a list of the victims of Pompeii as it would be of those who were overwhelmed in San Francisco. It is estimated that 800 bodies have been recovered and buried, and men clearing the debris are constantly finding additional victims.

Oakland, Cala., April 24.—The shooting of Major H. C. Tilden, an officer of Governor Pardee's staff, by three members of the citizens' patrol, has been followed by another shooting of an innocent man. Joseph Meyers, superintendent of the Children's playgrounds, saw citizen soldiers building fires on the grounds last night, and objected. The patrol aimed rifles at him and the next instant he was dead.

Chief of Police Dinan has issued an order to police captains to disarm all persons carrying fire arms excepting members of the police force and regular military organizations.

San Francisco, April 24.—The embargo on merchant vessels has been removed, and shipping can now be moved as usual. For the past few days ships of the Pacific squadron have been keeping vessels from leaving the port, but this restriction has been removed by orders from Admiral Goodrich, commander in chief of the Pacific squadron, to the shipping commissioner of the port.

Oakland, Cal., April 24.—Coroner Walsh states that his deputies took charge of 450 bodies taken from the ruins not including those buried by the police and militia in the Potrero. Over 100 were buried in this section alone. It is believed now the death list will be in the neighborhood of 1,000. Many were cremated and never recovered. Of those recovered many never will be identified. Bodies buried in Portsmouth and Washington Squares will be exhumed and an attempt made at identification. The San Francisco stock exchange has opened temporary quarters at 1407 Gough street. President Ruggles says he sees no reason for serious depreciation in stocks. Everybody is inclined to keep their stocks and later realize on them.

San Francisco, April 24.—The refugees are rapidly thinning out of Golden Gate Park and the Panhandle. The police estimate that 2,000 people left the park yesterday and about 3,000 are left. The rain had little depressing effect on the spirits of the people seeking shelter in the tents. One man tacked up a sign taken from a coal oil can: "Keep cool and dry." A company of soldiers will be sent from Fort Mason today to guard the vaults at Masonic Temple, where the papers from the Hall of Records are stored. All the records there were saved, but those in the county clerk's office were lost.

To Hold Preliminary Conferences.

Wilkes-Barre, Pa., April 24.—John Mitchell, President of the Miners' Union, will arrive this afternoon from Indianapolis and tonight he will hold preliminary conferences with the district presidents on the situation. The general scale committee will meet here tomorrow to consider the refusal of the operators to meet Mitchell's last proposition for arbitration and to decide what further move will be made. That an attempt to negotiate further with the operators will be made it is thought likely. A convention will probably be called to meet next Wednesday when the delegates will be informed in detail of every move made to bring about the acceptance of those demands by the operators. President Mitchell will doubtless indicate to the delegates what course of action should be pursued. What suggestion President Mitchell may have to offer is not known even to the district presidents, but the miners' president is expected to unfold his plan of campaign tonight. The district presidents realize the strong anti-strike sentiment, and say they hope to avert a strike.

Strikers in France.

Paris, April 24.—While the number of men out on strike in Paris is comparatively small, there has been a steady increase in the ranks of the strikers today. It is estimated that 15,000 men are now out. The majority of the strikers belong to the smaller trades, such as job typesetters, and tinsmiths. A meeting of bakers, grocers, butchers, milkmen, and hotel and restaurant employes has been called for tonight. The leaders of the movement say a general strike may be voted for May 1st. This would leave Paris without food.

Funds for the Sufferers.

New York, April 24.—New York has passed the $2,000,000 mark and the country at large has contributed more than $15,000,000 in the rush to offer aid to the victims of the California disaster. Contributions continue to pour in and it now appears that the national fund will reach $20,000,000, and New York city's high water mark of relief work will reach nearly $3,000,000.

The national fund this morning footed to $15,800,000, and before the morning mail at Red Cross, Chamber of Commerce and other subscription centres were opened, New York's share of this immense sum was $2,158,445 All this is without adding in the free transportation of supplies and refugees given by the railroads and the numerous carloads of provisions and other necessities which rushed westward immediately after the news came without waiting to be placed on any subscription list. The free transportation alone foots up $3,450,000, which makes the country's gift in round figures, $19,000,000.

St. Petersburg, April 24.—The Czar will open the new National Douma and Council of the Empire in person on May 10. The ceremony will probably be held in the Fanrida Palace. This will be the first public appearance of the Czar in St. Petersburg since bloody Sunday on January 22, 1905.

Fight at a Church.

Vienna, Austria, April 24.—Reports received today state that at Lesmo, near Warsaw, 3,000 orthodox Catholics, led by three priests and a Capuchin monk, at empted to retake a church which had been seized by Arianite sectarians. The latter, numbering 4,000, defended the church and defeated the orthodox Catholics, killing twelve, and wounding fifty members of the attacking party.

New York Stock Market.

New York, April 24.—Although there was a firm tone to the trading in the first few minutes this morning and prices moved up moderately on the initial movement, a flood of long stock, largely from western speculative houses, was thrown on the market and prices dropped to the lowest range reached since the first news came of the San Francisco disaster. In the last few minutes buying caused rallies ranging from one-half to 1½ per cent.

TELEGRAPHIC BREVITIES.

Mrs. Mary S. Hunt, the well known temperance worker, died at her home in Dorchester, Mass., early this morning.

A friend of Congressman Blackburn, of North Carolina, is in Raleigh today, and says that the first word which the congressman will address himself to in getting even with those of his own party responsible for his prosecution, will be to demand the removal of District Attorney Holton, of the Western North Carolina district.

A movement has been started in the American Medical Association by members now in San Francisco to help the physicians who have been greatly distressed in circumstances by the disaster. Over 500 physicians, mostly young men, have lost their possessions.

The London Central News states that "Billie" Burke, the well-known musical actress, has been left $35,000 by an American named Wallace Sawyer, who perished in the San Francisco disaster.

D. A. R.

The board of directors of the Daughters of the American Revolution at a meeting in Washington yesterday unanimously elected Mrs. Elizabeth F. Pierce, of Washington city, to fill the position of recording secretary-general, the office made vacant Saturday by the resignation of Miss Mary Desha, who objected to a parliamentary ruling by Mrs. McLean, the president general,

There was no sign of dissension among the members of the board yesterday growing out of the stormy session Saturday prior to the final adjournment of the Congress, and the business of the meeting progressed smoothly and with dispatch. In addition to the selection of a new recording secretary-general a large amount of routine matter left over from the congress was taken up and disposed of. During the day a letter from Miss Desha was read, in which she relinquished her right to the office and stated that she desired that all the papers, correspondence and other documents should be turned over to her successor. Later Miss Desha called at headquarters, where she was cordially greeted by the members there assembled.

After the Slemps.

What is regarded as the most recent significant political development in the State is the protest of Bristol republicans against Congressman Slemp, who occupies the only republican seat from Virginia. Following the meeting of protest in Bristol Friday comes the news that Bascom Slemp, State republican chairman, and L. P. Summers, collector of internal revenue, were in Bristol Saturday in conference with republican leaders in an effort to bring about harmony. It is said that the republicans of Bristol have united behind Stuart G. Lindsay, who is urged to oppose Slemp for the renomination

A Ninth-district democrat who was in Richmond yesterday said: "We want Gen. Rufus A. Ayers, of Big Stone Gap, to offer himself for the nomination. We can elect General Ayers, and the people of all the counties in the district will support him."

Paul Jones and La Fayette.

To the Editor of the Alexandria Gazette.

This account of the meeting of Paul Jones with La Fayette in our city by Buell, which makes part of the unpublished history of Alexandria, is sent to the Gazette as a contribution towards the observances of tonight.

April 24. W. F. C.

The Marquis de La Fayette, with a shipload of supplies, had by a roundabout voyage from passages in Spain, ostensibly to Porto Rico, arrived at the [illegible]n, South Carolina, [illegible]l was journeying by [illegible]a. It happened that South Carolina to [illegible]yette reached Alexan[illegible]bat Paul Jones, on his [illegible]solated plantation, and [illegible]n at the same tavern. [illegible]th him the Baron [illegible] other German, Polish and French officers. La Fayette could express himself fairly well in English as could de Kalb, but the others could not. The interpreter was a very poor one. The meeting with Paul Jones took place in consequence of the efforts of La Fayette and de Kalb to straighten out some misunderstanding about the relay of horses. La Fayette himself thus described the incident in a personal reminiscence during his visit to this country in 1824.

"A slender black-haired, black-eyed swarthy gentlemen in naval uniform, of the most martial and distinguished bearing approached and said in perfect French:

"'Pardon monsieur, il me semble que, peutetre, je peux vous aider. Eu tel cas me commandez s'il vous plait.'

[Pardon me, sir, perhaps I can aid you. In that case please command my services.]

"Delighted to hear my native tongue so unexpectedly and opportunely spoken, I inform the gentleman who we were, and asked whom I might have the honor to address.

"He replied in French 'I have the honor to be captain of a frigate of the United States navy and my name is Paul Jones, at your service.'

"Profoundly acknowledging his courtesy I at once turned over to Captain Paul Jones the task of composing our difficulties, and instantly discovered that he was a captain in fact as well as by title. The people in Alexandria seemed to know him well. He assumed an air of easy tho' quite imperious mastery of the situation, and, in a very short time, our cavalcade was ready to set out. He had an appointment to dine that evening with friends in Alexandria, but upon my invitation to join our party he hastily sent a message to cancel the engagement by reason of a sudden and unexpected pressure of public duty of grave importance and journeyed with me to Philadelphia."

Memorial Exercises

All arrangements have been made for the joint memorial exercises to be held tonight in the Masonic Temple by Alexandria-Washington and Andrew Jackson Lodges of Masons in honor of the memory of Admiral John Paul Jones As has been stated, the exercises will consist principally of eulogies on the great admiral. Admiral Winfield Scott Schley, United States navy, retired, has accepted an invitation to be present and deliver an address Grand Master K. Kemper, of Virginia, will preside at the exercises and Mr. C. C. Carlin will deliver the opening address. Admiral Schley will arrive here this evening in the palace car of the electric railway. Owing to the limited seating capacity of the lodge room admission will be by card. There will be no banquet. The committee in charge of the arrangements is composed of Messrs. R. W. Arnold, C. H. Calahan, W. A. Moore, jr., of Alexandria-Washington Lodge, and H. K. Field, C. B. Marshall and Samuel P. Fisher of Andrew Jackson Lodge. The lodge will meet at 7 o'clock this evening.

Expressions of Appreciation.

As was stated at the time, the Reliance Fire Company at a recent meeting elected Rev. Father R. L. Carne a life member of the organization. Father Carne throughout most of his life was an active member of the old Hydraulion Fire Company, occupying various positions in the same. Mr. L. E. Uhler, President of the Reliance Company, has received a letter from Father Carne in which the latter expresses his appreciation of the compliment bestowed upon him by the company. He also calls attention to the fact that it is the duty of all citizens to labor in positions for the public good, and says he knows of none more honorable than those filled by volunteer firemen.

Charter.

The State Corporation Commission has granted a charter to the Samuel J. Prescott Company, Inc., of Alexandria, Va. Incorporators—S. J. Prescott, president; H. F. Woodard, secretary and treasurer, both of Washington. Capital stock—maximum, $200,000. Objects and purposes; general contracting business.

Entertainment Tonight.

All preparations have been made by Potomac Lodge, No. 38, I. O. O. F., for the entertainment tonight at 8 o'clock in the hall on north Columbus street. The exercises will be interesting throughout, and all who attend will experience a pleasant evening.

Corporation Court.

[Judge L. C. Barley presiding.]

Com. vs. Ferdinand F. Derndinger, indicted for bigamy; case continued till first day of May term and accused released on bail.

Peter Di Georgio, a native of Italy, declared his intention of becoming a citizen of the United States.

A large scow built for Messrs. Agnew & Co. of this city was launched at the shipyard a day or two ago. It will be used for the transportation of soft coal about the Washington harbor to the different steamboat landings and coaling docks. The scow is eighty feet long, twenty-four feet wide and has a draft of six feet loaded. It will carry about 250 tons of coal.

A Good Performance.

The Chauncey L. Southern Company opened a three nights' engagement at the Opera House last night in "The Paradise Lost," a three act mid drama. Mr. Southern appeared in the title role of Ruben Warner and carried off the honors of the play. His interpretation of the difficult part was most excellent and he was repeatedly applauded. In the second act Mr. Southern's part was of the highest order and he was equal to the occasion in everyway. Next in importance in the cast was Miss Evelyn Clark as Margaret Knowlton, who made a beautiful heroine while Mr. J. P. Tucker as Ralph Standish made an excellent heavy man. The comedy parts of Bob Appleton and Cinders were in the hands of Raymond S. Paine and Maybelle Vantassell. Mr. Paine has appeared in this city before, and his acting last night was a credit to his profession, while Miss Vantassell was very good in her part. The other members of the company are all good actors. This company is undoubtedly the best repertoire company that has appeared in this city for years and, judging from the crowded house last night, will doubtless receive good patronage. There is nothing cheap about these plays except the prices. Tonight the Southern Company will present for the first time in this city the four-act melodrama "The Plunger," with all scenic effects. This play abounds in thrilling situations and good climaxes.

As heretofore stated, the Southern Company will give a matinee on Wednesday afternoon at 3 o'clock for the benefit of the San Francisco sufferers, the entire proceeds to be sent to that city. The play to be presented will be "Dr. Jekyl and Mr. Hyde." The show needs no introduction and, as Mr. Southern is a capable actor, a good performance may be looked for.

Reception to Pastor.

There was a large gathering in the M. E. Church South last night to witness the reception tendered to Rev. C. D. Bulla, the new pastor, and the organ recital. The following programme was rendered in a very creditable manner: Organ, "Cradle Song," Schuecker, Mr. W. S. Reiley; prayer; solo, "Garden of Life," Dr. C. E. Outcalt; organ, "Post lude," Rink, Mr. W. S. Reiley; address of Welcome from Church, Mr. H. K. Field; solo, "The Day is Ended," Miss M. Vierkorn; violin solo, "Sextette from Lucia," Mr. A. L. Jameson; address of welcome from Sunday School, Mr. J. E. Alexander; solo, "The Majesty of the Divine Humiliation," Mr. Kenneth Ogden; violin and clarionet duet, "Sweet Evening Star," Mr. A. L. Jameson and Mr. F. H. Hill; organ, "Allegretto Graziosa," B. Tours, Mr. W. S. Reiley; address of welcome from Epworth League, Mr. F. J. Pollard; solo, "O Divine Redeemer," Mrs. T. A. Hulfish; response, Rev. C. D. Bulla; organ, Andante, Allegro, 1st Sonata, Mendellsohn, Mr. W. S. Reiley. The reception to the pastor followed.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Harry Brown, arrested by Officer Jones charged with assaulting and cutting Ella Brown with a knife, had his case continued.

Ernest Sullivan, arrested by Officer Roberts charged with habitual drunkenness, was sent to jail for 20 days.

A white man, arrested by Officers Bettis and Nicholson charged with disorderly conduct and fighting, was fined $10. Another white man, arrested by the same officers for a similar offense, had his case continued.

Charles Finnel and John Hansborough, arrested by Officers Beach, Lyles, Knight and Arrington charged with assaulting Herbert Hansborough, were dismissed and the complainant fined $5 for disorderly conduct.

Concert and Reading.

The entertainment at Lee Camp Hall last night under the auspices of the Seventeenth Virginia Chapter was greatly enjoyed by all who attended. The programme, which had been selected with care, was well rendered. The readings by Mrs. Champ Clark and Mrs. A. T. Hanson were brilliant features of the entertainment, while all who participated acquitted themselves admirably. Mrs. Fred Russell rendered a piano solo; Mr. Harris Franklin a baritone solo; Mrs. Raymond Hulfish a solo; Mr. Kenneth Ogden a tenor solo; Dr. Outcalt a baritone solo; Miss Steiner and Miss Armstrong rendered the accompaniments on the piano. Mrs. Clark and Mrs. Hanson were presented with beautiful bouquets at the close of the entertainment.

Death of a Former Resident.

William Newton McVeigh, son of the late Wm. N. McVeigh, a former resident of Alexandria, died suddenly yesterday at the home of his brother, Harvey McVeigh, near Stevensburg, Culpeper county. The deceased spent the greater part of his life in this city, but moved to Richmond several years ago. He was unmarried. The remains arrived here this afternoon on the Southern Railway, and the funeral took place from the Union Station at 3 o'clock. The interment was in Ivy Hill Cemetery. Rev. Edgar Carpenter officiated at the funeral.

Arrest of Assailant.

Several weeks ago Harry Brown assaulted his wife, Ella Brown, with an oyster knife. Had it not been for a corset steel she would have received serious if not fatal injuries. Brown made his escape, but reappeared yesterday when he was arrested by Officer Jones. He was brought before the Police Court this morning and committed to jail for a future hearing.

APPEAL FOR AID.

Alexandria, Va., April 24, 1906.

Having been appointed a committee by the Mayor of our city to solicit contributions for the San Francisco sufferers, we are endeavoring to communicate with every one in the city on this subject, but are being compelled to do the work so hurriedly that we will doubtless fail to communicate with a great many who are desirous of subscribing; hence we wish to state that any member of this committee, named below, will be pleased to receive any contributions.

We trust that the people of our city may respond liberally to this worthy cause.

We Probably Have It.

A good many people make the mistake of going to Washington to get something they could buy at home, do not look for it here, just jump to the conclusion that such things are not to be had in Alexandria.

We would like to state to those contemplating purchasing a fine watch, or diamond, or other fine piece of jewelry, clock, silverware, cut glass, etc., that we have a large and complete stock of the above mentioned goods and which we offer at a lower price than is asked for the same goods in Washington.

TUESDAY EVENING, APRIL 24, 1906.

Sufferings of the Unfortunates.

A drenching rain fell upon San Francisco Sunday night. From midnight until 3 o'clock it poured and drizzled at intervals, while a high wind added a melancholy accompaniment, whistling and sighing about the ruins of the buildings in the burned district.

The element caused indescribable suffering to the tens of thousands of people camped upon the naked hills and in the parks and open places of the city. Few of these were provided with wate proof covering. For the most part their only protection from the wet was a thin covering of sheeting tacked upon improvised tent poles. Through this the water poured as through a sieve, wetting the bedding and soaking the ground upon which they lay.

When it is understood that thousands upon thousands of delicately nurtured women and infants in arms and old and feeble people were in this plight, nothing need be added to describe the misery of their condition.

The downpour has aggravated the already unsanitary condition of the camps, and will, doubtless, add great numbers of pneumonia cases to those already crowding the regular and temporary hospitals of the city.

What could be done was done by the guards in charge of the camps to relieve the distress. Whenever covering could be had for the women and children it was taken advantage of. They were housed in chill and cheerless churches, in garages and barns, and those who had saved their homes were called upon to take care of the unfortunates exposed to the storm. With few exceptions, those who had homes responded readily to the new call made upon them, and where they did not the butt ends of rifles quickly forced a way through inhospital doors.

Of individual instances of suffering the number is legion, but one will tell the story of them all. About 4 o'clock, when the rain had been falling heavily for an hour, a middle-aged man, white-faced in his distress and fatigue, appeared at the headquarters of the committee. He had walked two miles from his camping place in the park to make an appeal for his suffering wife and little ones. As he told of their distress tears coursed down his cheeks. His wife and children were, he said, without covering other than a sheeting overhead, and were lying on the naked ground and their bodies only protected by a quilt and blanket, which of his household bedding were all he had managed to save. These had quickly been soaked, and while unwilling to complain on his own account, he could not listen to the wails of his loved ones and had tramped all the way from his camping place to the committee headquarters in the hope that he might find some means of getting his family under shelter.

The condition of the 5,000 persons camped in Jefferson Square is terrible. Not more than 5 per cent. have even an army tent, and makeshifts are constructed of carpets, bed sheets and every imaginable substance.

Don't tie a cough or a cold up in your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Honey and Tar. It is better. It opens the bowels. An ideal remedy for young and old. Children like it. Sold by W. F. Creighton & Co., 402 King street.

Releasing Coal.

A dispatch from Philadelphia says that the Reading Company has released its immense stores of coal for the protection of the blast furnaces and other industrial plants. Retail dealers, whose stocks have been entirely exhausted, are also being supplied. It is the belief now that the operators have come to the conclusion that there will be no strike. Pending the final action of President Mitchell and his committee of anthracite miners, only emergency sales of steam sizes of hard coal will be made, however. This distribution will be confined to the plants and coal yards visited personally by agents of the Reading Company to make examinations as to the immediate needs. The news that the immense tonnage is open for use will cause general rejoicing throughout the country, and it is improbable that retailers will insist upon raising their prices. Other large companies will act in accordance with the policy of the Reading, and it is now known that no industrial plants will be compelled to shut down for lack of fuel.

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures LaGrippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption. Coughs and Colds 50c and $1.00. Guaranteed at E. S. Leadbeater & Sons' drug store. Trial bottle free.

Chamberlain's Cough Remedy the Best and Most Popular.

"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for la grippe," says Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold by Gibson & Timberman and W. F. Creighton & Co.

All the good qualities of Ely's Cream Balm, solid, are found in Liquid Cream Balm, which is intended for use in atomizers. That it is an unfailing cure for Nasal Catarrh is proved by an ever-increasing mass of testimony. It does not dry out nor rasp the tender air-passages. It allays the inflammation and goes straight to the root of the disease. Obstinate old cases have been cured in a few weeks.
